MADE IN ITALY

- Patented Special Stainless Steel SPECIAL INOX.
- Softness and flexibility to finely work the finest of plasters and polishing mortars.
- Uniquely tailored for the most challenging surfaces.
- Cutlery-grade with a defined hardness that keeps edges sharp.
- Perfect finishes with no burn markings.
- 100% Hand-Made by Expert Italian Blacksmiths in the region of Venice, Italy.

PREVENTS PLASTERS FROM TURNING GREY DURING BURNISHING

Eliminate burn marks that can discolor finish coats.

FEELS LIKE SILK DURING APPLICATION

Super mirror polished finishes in less application time.

EASY CLEANING

Blade remains sharp and smooth. Material does not stick to the blade.

Perfect for applying and polishing thick or fine finishing mortars on walls, ceilings, floors. No burn properties even on the whitest of surfaces, including high-white brightness applications.

Controlled and balanced weight distribution throughout with superior flexibility while maintaining steady pressure during polishing. Perfect for floors, countertops and ultra-fine finishing plaster.

TWO-COMPONENT HANDLE MADE OF AIRCRAFT ALUMINIUM.

MOUNTED WITH NON-VISIBLE RIVETS.

ELITE CRAFTSMANSHIP MARRYING BLADE, STEM AND HANDLE INTO ONE.
